

PREMIUM NUTRITION
FOR CATS AND DOGS

UNITED BY LOVE – CLUB 4 PAWS

Those who have pets are on the same wave. We may be strangers, but we always recognize pet owner from afar. No matter how different we are, there are things that unite us. Some of them can be seen - a photo of a pet, wool on clothes, scratches on the hand, or a cute keychain on a bunch of keys. These symbols unite us in a real Club - a secret union of millions, which is constantly growing.

The main secret of the CLUB 4 PAWS is that WE, its members, become better because of pets that are waiting at home.

CLUB 4 PAWS is also a club member. Its nutrition is created by people, who are inspired by kindness, love and care about their own pets.

Premium nutrition for cats and dogs was developed by KORMOTECH specialists together with American (PETFOOD WORLDWIDE DEVELOPMENT) and Polish experts (PETFOOD SPECIALITIES) under the supervision of Ukrainian veterinarians. CLUB 4 PAWS products are exported to Europe and the world.

All recipes are balanced and contain meat ingredients on the first place, necessary vitamins and minerals and Omega-3 and Omega-6 complex. Nutrition is enriched with unique health formula INTEGRAMIX - the result of our never ending effort to do the best for pets' health. Hawthorn, banana, tomatoes and ginger are an exceptional set of ingredients from four sides of the world that help maintain the health of your pet.

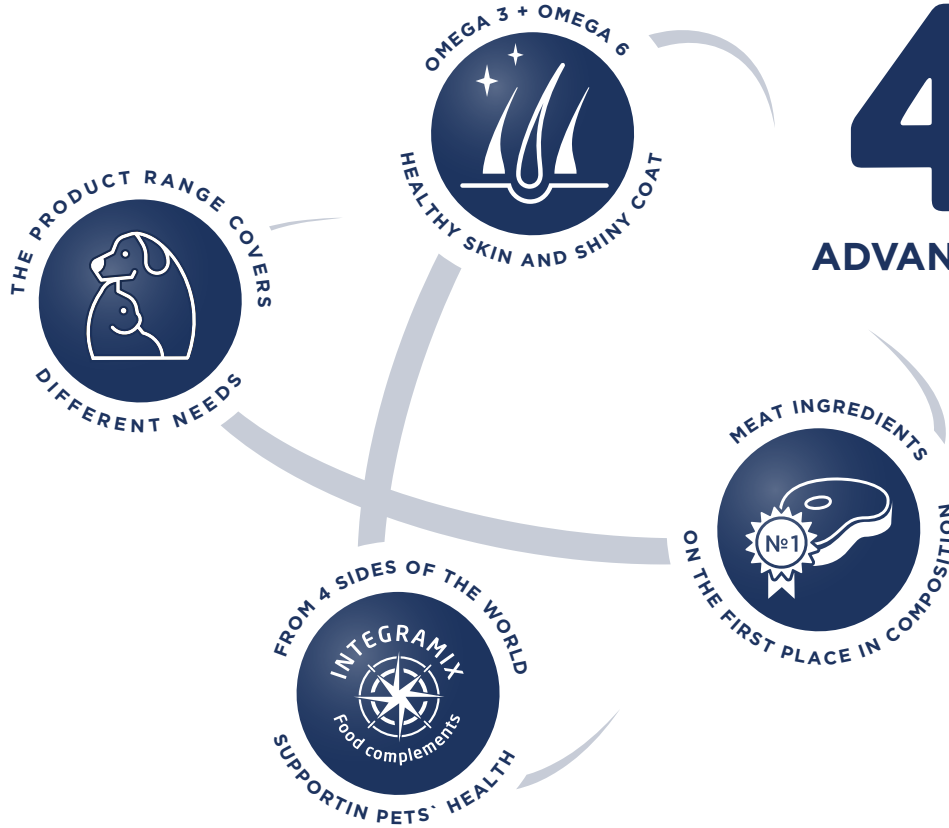

The range of products includes dry, wet food and a snack group. All the products are divided into lines according to the age, basic and special needs of an animal.

Through the education programs and social initiatives we promote the responsible attitude to animals and develop a culture of harmonious coexistence with them.

ADVANTAGES

THE RECIPES WERE DEVELOPED TOGETHER WITH AMERICAN AND POLISH EXPERTS AND INCLUDE:

Meat ingredients on the first place in composition

Most recipes are based on chicken meat which has a high percentage of digestion

Natural antioxidant – tocopherols

Flax seeds as a source of fiber and essential

Salmon oil as a source of Omega 3 + Omega 6, has a positive effect on formation of the organism

The soluble fiber from beets is a natural prebiotic, in particular, is a nutritional medium for beneficial microflora

INTEGRAMIX.

FORMULA OF 4 INGREDIENTS FROM 4 SIDES OF THE WORLD TO SUPPORT PETS' HEALTH

DRIED BANANAS FROM THE SOUTH

Contain easy digestible carbohydrates and fibre, which stimulate bowel movement and are a good source of energy; rich in potassium, which promotes cardiac function

DRIED TOMATOES FROM THE WEST

Contain organic acids, Vitamin B; rich in choline, which helps to normalize hepatic function and promotes bile synthesis

DRIED HAWTHORN FROM THE NORTH

Helps to normalize blood pressure and favours the improvement of cardiac function

DRIED GINGER FROM THE EAST

Has a positive effect on the work
Of gastro-intestinal tract and helps
To maintain immunity
